

I oppose weakening Indiana's law on telephone privacy. I enjoy having my quiet time at home with my 7 month old son and my husband. I enjoy that I don't have to answer the phone and listen to someone try to solicit me for something. I enjoy companies not waking up my son's naps. I enjoy the phone not ringing constantly or have to check the caller id to see if unwanted solicitors are calling. Please leave Indiana's do not call list alone.
